SUMMARY

Computer Science graduate with a strong foundation in Python, SQL, full-stack web development, and machine learning. Experienced in developing web applications, implementing REST APIs, and building machine learning models through academic and personal projects. Adept at problem-solving, analytical thinking, and applying technical concepts to practical challenges. Seeking an entry-level Software Developer role to contribute to software development initiatives, enhance technical expertise, and deliver reliable, maintainable solutions.

SKILLS

Programming Languages: Python, JavaScript, TypeScript, SQL
Technologies/Frameworks: React.js, Node.js, Express.js, Flask, Tailwind CSS, Git, GitHub, Postman, MySQL
Software Development Proficiency: Frontend Development, Backend Development, REST API Development, Database Management, Version Control, AI-Assisted Development, Machine Learning, Computer Vision

PROJECTS

CineMatch | Full-Stack Movie Recommendation System (Link)
React, Vite, Python, Flask, scikit-learn, TMDB API

- Built and deployed a recommendation platform featuring 4,803 movies, using CountVectorizer and cosine similarity for content-based recommendations.
- Developed Flask REST APIs for search and recommendations; validated functionality with 91 automated API tests. Deployed frontend on Vercel and backend on Render.

Animal Injury Detector | Deep Learning & Computer Vision (Link)
Python, PyTorch, ResNet-18, scikit-learn, pytest

- Developed a ResNet-18 classifier using an 802-image dataset, achieving 97.74% test accuracy and 88.89% injured-animal recall on 133 held-out test images.
- Implemented group-disjoint data splitting and modular training, inference, and evaluation workflows; verified with 14 unit tests.

Flight Dashboard | Live Flight Tracking & Schedule Platform (In Development)
React, TypeScript, Vite, Tailwind CSS; Planned: Node.js, Express, Aviation APIs

- Developing a responsive flight dashboard aimed at combining flight search, schedules, status information, and live aircraft tracking.
- Planning backend integration with Aviationstack for flight schedules/status and OpenSky Network for aircraft position data.

EDUCATION

Bachelor's Degree in CSE(Block Chain), Samrat Ashok Technological Institute (GPA: 7.84) — Sept '22 – June '26
Higher Secondary Certificate in Science, Kendriya Vidyalaya Balaghat (GPA: 8.13) — Apr '20 – Jul '21
Secondary School Certificate in Science, Kendriya Vidyalaya Malanjkhand (GPA: 7.85) — Apr '18 – June '19

CERTIFICATES

National Conference on Advanced Computer Science and Information Technology (NCACSIT 2025)

- Co-presented the research paper ***"Technology-Driven Rescue and Welfare Systems for Stray Animals"*** at NCACSIT 2025.

Smart India Hackathon (SIH) 2025

- Participated in the institute-level internal hackathon held on 19 September 2025 as part of Smart India Hackathon 2025.

IBM SkillsBuild

- Participated in an IBM SkillsBuild workshop conducted by IBM officials at the institute.
- Completed certifications in- ***Getting Started with Enterprise Data Science.***
  Enterprise Data Science in Data Science.

VOLUNTEERED

Head Graphic Designer | Training and Placement Cell, SATI
Led graphic design initiatives and coordinated with teams to support the successful execution of placement events and activities.

Graphic Designer | Entrepreneurship Cell, SATI
Designed promotional materials and event branding to support entrepreneurial initiatives, maintain a consistent visual identity, and effectively communicate the cell's mission and objectives.
